*Faxed to Richmond Sanitary:* \_\_\_\_\_ *Date* \_\_\_\_\_

By contractual agreement between the City of Piedmont and Richmond Sanitary Services, Richmond Sanitary has an exclusive right to provide Drop Box, Debris Box, and Roll-Off Box Services to Piedmont property owners. No other hauling company may provide those services for properties within the City of Piedmont. Prices charged by Richmond Sanitary Services are regulated by the contract between the City and Richmond Sanitary.

The following exceptions apply:

**Solid Waste Materials:** Homeowners (**not** their contractor, subcontractor or other agent) may personally transport solid waste materials to a licensed solid waste disposal, transfer or processing facility.

**Recycling Materials:** Homeowners may give recyclable materials to another hauling service or a recycling processor provided that no compensation of any kind is given to either the hauler or processor for the collection or disposal of the materials.

Drop Boxes related to Construction Projects:

Drop box applications, in connection with a construction project and building permit, are valid for the duration of the project. The contractor or homeowner may swap out boxes (a full for an empty, for example) or go through periods of interrupted service.

Drop Boxes for Other Uses:

Drop box applications, when requested by homeowners for personal use (cleaning out a house or garage, for example), are for ONE box only for the dates specified on the application. Should the homeowner need another box, either during the same time period or at another date in the future, another application must be submitted to the Public Works Department.

To make arrangements to have a debris box, drop box or roll-off box delivered to your residence for the collection and removal of either solid waste or recyclable materials, please complete the drop box application at the Public Works Office and allow 24 - 48 hours before contacting Richmond Sanitary Services at **800-320-8077**.
