

Correspondence – Item 6 – Appointment to Audit Sub-Committee 3/1/10

Mr. Gilbert:

Due to a staff shortage on Friday, the posting of the Audit Sub-Committee material was delayed until today.

The front page of the city's web site now has a clear link to an Audit Sub-Committee page including the primary source documents. I believe the link for future agendas is also clear. However, you and other members of the public should note that there has been no meeting (and therefore no agendas or staff reports) to date.

Your email has been included in the public record for this evenings meeting. Please let me know if you need further assistance.

Ann Swift
City Clerk

Subject: Appointment of Judge Kawaichi to Audit Sub-Committee

Good evening,

In the recommendation to Council regarding the appointment of Judge Kawaichi to the Audit Sub-Committee, residents are invited to sign-up for email notifications and agenda of all meetings of the Audit sub-committee at the City's web site. It was also stated that "primary source documents related to the project have already been posted at this site"

Please confirm where interested parties should go. This link should be prominently listed on the home page of the web site. I'm sure you'll receive many enquiries from residents about the work of the committee.

I could not find a link to the Audit Committee's Agendas and Staff Reports on the site. The only source documents related to the District are the same documents that have been available for many months and have been posted on the Undergrounding section of the web site. I imagine that there are many more documents that the Sub-Committee will need to review - and enabling online access to the documents will save a lot of resources.

Please add this email to the record for the meeting on Monday - and include your response.

Regards,

Ryan Gilbert
