Re: Crown Castle Wireless Communications Facility Permit Applications

Dear Pierce,

Crown Castle NG West LLC ("Crown Castle") hereby submits revised plans for Site PHS02, near 505 Blair Avenue ("Revised Plans"). The Revised Plans are intended to address many of the comments and concerns of the City of Piedmont Planning Commission ("Planning Commission"), raised at the June 12, 2017, Planning Commission meeting on this application.

Crown Castle submits these plans as a supplement/revision to its pending application -- not as a new application. We understand that the Revised Plans will be considered by the City of Piedmont City Council at its September 5, 2017, meeting pursuant to the City of Piedmont Municipal Code, which places final decision-making authority in the hands of the City Council after review and a recommendation by the Planning Commission.

As a final note, the Revised Plans are demonstration of Crown Castle's intention to work collaboratively with the City to achieve a design that addresses community concerns while still allowing Crown Castle to supply critical telephone infrastructure for the City, its visitors and residents. It is our hope that Crown Castle and the City will continue to work together towards final approval of the Crown Castle network.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Sharon James', written over a horizontal line.

Sharon James, Manager  
Government Relations
