## Is your house leaking energy and money? Get REBATES to Upgrade now

### Energy Upgrade California is your path to greater efficiency and comfort

Energy Upgrade California in Alameda County is a one stop shop for homeowners to find everything they need to make home improvements that save energy, water and other natural resources. The program connects you with qualified contractors who can plan and complete your project—and get you **rebates** to help pay for it.

### Take a “whole house” approach The sum is greater than its parts

Increasing your home's efficiency isn't just switching out light bulbs or adding low-flow showerheads—it's approaching your home as a complete system, with heating, air-conditioning, water and other systems working together more effectively to help lower your bills. Energy Upgrade California provides the professional resources you need to take that “whole house” approach.

## 3 Upgrade Packages to choose from:

**1 The Basic Upgrade Package** involves sealing and insulating your home for greater efficiency. The utility rebate from PG&E is fixed at \$1,000.

**2 The Advanced Upgrade Package** is customized for your home to determine the best way to achieve maximum efficiency. Your project will incorporate a variety of upgrades and might include a high-efficiency furnace, new windows or wall insulation. The amount of the PG&E rebate varies—from \$2,000 to \$4,000.

**3 The Green Upgrade Package** is a comprehensive solution that combines energy, indoor air quality, water and resource conservation measures to create a comfortable home with reduced impact on the environment. The Green Upgrade Package can be combined with either the Basic or the Advanced Upgrade Packages.

**Ask your contractor** about additional rebates and incentives.

## Upgrade Packages

Are you already planning a remodel? Need to replace an old heating system? Want your renovation to achieve green building certification? Or are your utility bills just too high? No matter what your situation, Energy Upgrade California can connect you with the right professionals to help you select the best package for your project.

## Participating Contractors

All Energy Upgrade California contractors are trained to provide the highest quality of service. Contractors qualified to provide the Advanced and Green Upgrade Packages receive additional training and certification from nationally respected home performance and green building organizations. A rigorous quality assurance system ensures that Energy Upgrade projects meet program standards.

## Rebates and Incentives

There are many ways to help pay for your Upgrade Package, including utility rebates, Cash for Appliances rebates, Federal Tax Credits and local government incentives.

## PG&E Utility Rebates
