

**City of Piedmont
California**

PUBLIC NOTICE

On Monday, March 15, 2010, the Piedmont City Council will consider a request for appropriation to expand the scope of the Moraga Canyon Sports Fields Environmental Impact Report (EIR) which is currently in process.

LSA & Associates and Benson Lee, whose original contract for preparation of the EIR was approved in January 2009, have agreed to perform additional work for the city in the areas of Visual Resources, Hazardous Materials, Noise, Air Quality, and Global Climate Change. **The requested appropriation for these services is \$26,200.**

Based on the quantity of public comments already received for the Notice of Preparation and the Initial Study for Moraga Canyon Sports Fields Project, the consultants have also advised that it is likely that an additional appropriation request will be needed for preparation of the Response to Comments for the Draft EIR. Until receipt of those comments, it is not possible to quantify what additional funds are needed.

You are invited to this meeting to express your opinion. You may choose to write to the Piedmont City Council, c/o City Clerk, 120 Vista Avenue, Piedmont, CA 94611 or by sending an email to aswift@ci.piedmont.ca.us. **The staff report and supporting documents for this matter will be available on the city web site by Thursday, March 11, 2010.**

Seating in the council chambers is limited. However, the meeting will be televised live on KCOM-TV, Channel 27, the City of Piedmont government access TV station, and is also available through streaming video on the city web site www.ci.piedmont.ca.us under "on-line video".

For further information, please contact City Clerk Ann Swift at 420-3041 or Recreation Director Mark Delventhal at 420-3073.

Ann Swift
City Clerk
